Subject: Re: 953 Pacific

Hello Willow,

Unfortunately, the above link does not work.

I am extremely interested in viewing the plans in order to see the distance the new garage is next to our dwelling. As it is now, due to the close proximity of the neighbors current shed to our house, it would be impossible to conduct any meaningful repairs if required.. Will the plans reveal the proposed set back dimensions as well as entrance exit possibilities?

Am I correct in assuming that I will have no video/audio access to the meeting in real time? If this is indeed the case, I shall have no ability to follow along and ask questions as they present themselves.

In closing, I do not wish to encumber my neighbors with any adverse requirements to their intended project, however I do wish to have the ability to access my property for periodic repair and maintenance. Please submit my concerns to the meeting and inform me of the results.

Respectfully,

Ken James.
